

**Q** When will results be noticed?

Within days, many patients begin to notice results. Studies reveal that the great majority of patients judge the improvement by 30 days as moderate or better.

**Q** Is BOTOX<sup>®</sup>COSMETIC a permanent solution to wrinkle reduction?

Not really. BOTOX<sup>®</sup>COSMETIC is broken down by the body within 3-4 months. Once metabolized, the results also fade. Fortunately, re-treatment with BOTOX<sup>®</sup>COSMETIC can be performed safely several times each year; however, BOTOX<sup>®</sup>COSMETIC will never permanently offer wrinkle reduction - or even the length of relief expected from riskier or more costly procedures.

**Q** Are BOTOX<sup>®</sup>COSMETIC treatment expensive?

Studies show that BOTOX<sup>®</sup>COSMETIC is one of the most affordable non-surgical treatment options for men and women seeking cosmetic-enhancement. BOTOX<sup>®</sup>COSMETIC pricing varies depending on the region being treated as well as the patient's gender. Single area treatments typically cost between \$250 and \$500 - while multiple areas are always discounted. We can provide an accurate price for you at your personal consultation with Dr. Berkowitz.

**When your laugh lines no longer leave you smiling, it's time to try BOTOX<sup>®</sup>COSMETIC.**
